

I K Series

Swappable Workbench and
Closed Design

► The K-type laser cutting machine has a replaceable worktable and a closed design that meets high-speed and environmental protection requirements. It has an overweight bed and supports bevel cutting.

- 

Dual-drive High-precision
Servo Motor
- 

Heavy Sheet Metal Welding
Front and Rear Bed
- 

Lightweight
High-speed Movement
- 

Support
Higher Power

Product Advantages

Enclosed with Camera

Environmentally friendly and
convenient for monitoring
cutting conditions

Exchange Table

No waiting for loading and unloading

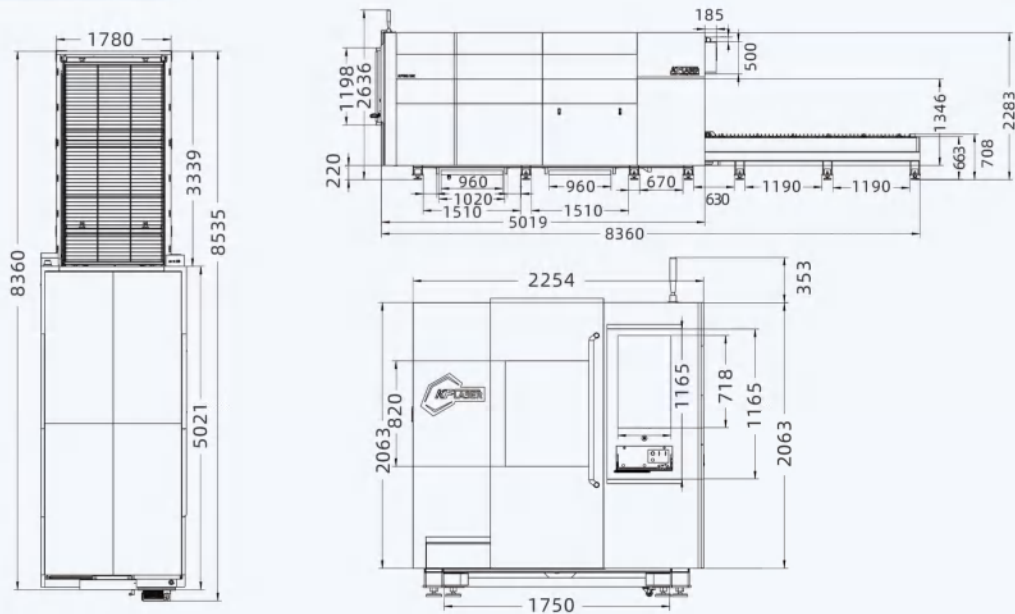

Overweight Bed

High Precision Speed

Optical Lens Set

The lens set has a drawer-style
design, plug and play

Dimension Layout

Performance Parameters

Model	K3	K4	K6
Working Area(mm)	3050*1530mm	4100*2050mm	6100*2550mm
Dimension (L*W*H)	8300*3100*2400mm	10300*3600*2400mm	14300*4100*2400mm
Power Support	1500-30000W	1500-40000W	1500-40000W
Maximum Idle Running Speed	150m/min		
Maximum Idle Acceleration	1.5G		
X/Y Axis Positioning Accuracy	±0.05mm		
Repeat Positioning Accuracy	±0.02mm		
Exchange Table Moving Time	10s
