

I M Series

Single-platform
Enclosed Model

► The M-type is a single-platform enclosed fiber laser cutting machine that meets environmental protection requirements, occupies a smaller area, and the loading platform can be pulled out.

- 

Dual-drive High-precision Servo Motor
- 

Heavy Sheet Metal Welding Front and Rear Bed
- 

Lightweight High-speed Movement
- 

Higher environmental protection level

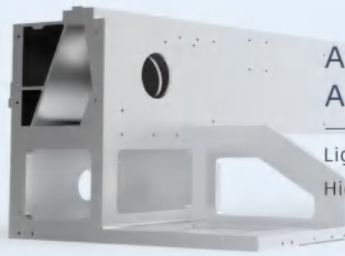

Product Advantages

Pull-out Tabletop

Convenient Loading and Unloading

Enclosed Single Platform

Safer Operation

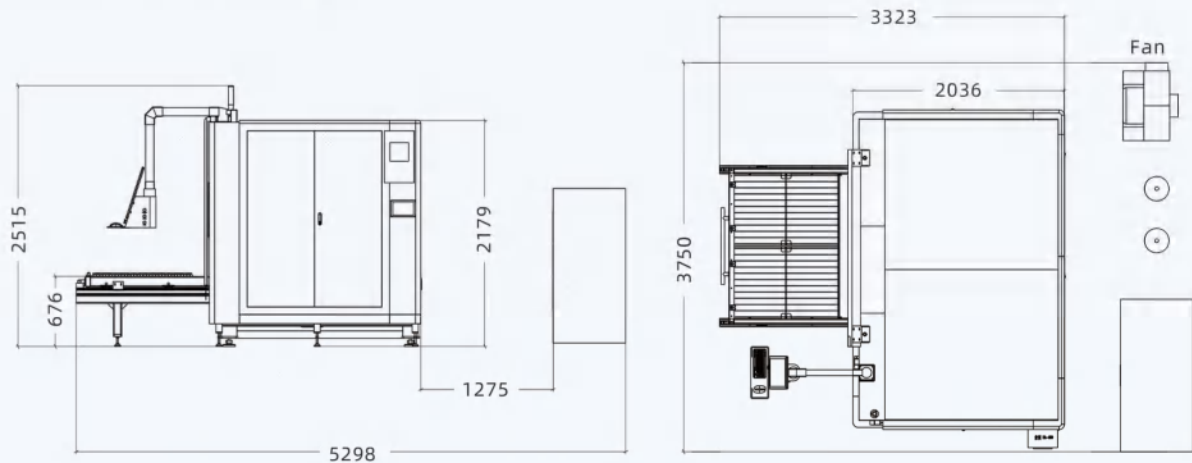

Aviation Aluminum Beam

Lightweight While Ensuring High-speed Movement

Dimension Layout

Performance Parameters

Model	M3
Working Area(mm)	3050*1530mm
Dimension (L*W*H)	8300*3100*2400mm
Power Support	1500-6000W
Maximum Idle Running Speed	150m/min
Maximum Idle Acceleration	1.5G
X/Y Axis Positioning Accuracy	±0.05mm
Repeat Positioning Accuracy	±0.02mm
