

I S Series | Standard Model

► The S series is the most cost-effective solution for the sheet metal processing industry among KFLASER products

Single platform open
Equipped with universal wheels

High-speed and high-precision
control system

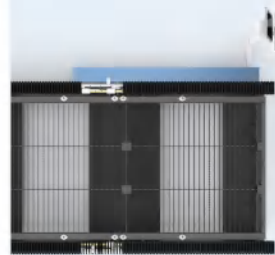

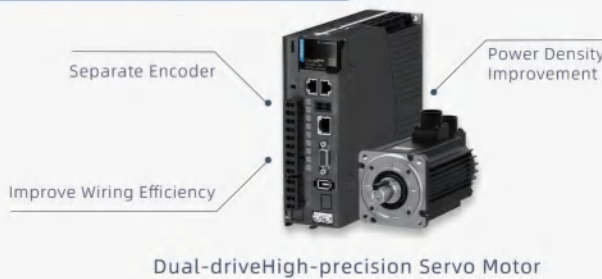

Highly integrated design
easy to transport and place

Simple and reliable structure
easy maintenance

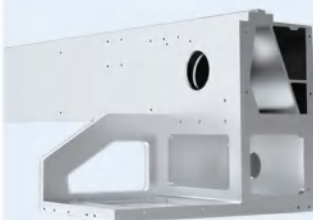

Product Advantages

Sheet Welding Bed

Long-term Use
Without Change In
Accuracy And Speed

Aviation Aluminum Beam

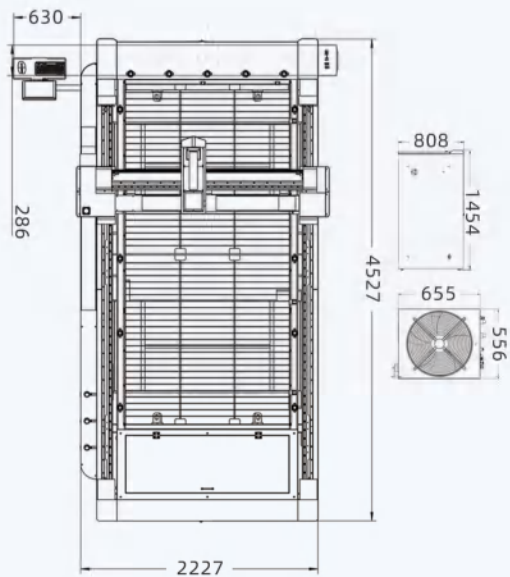

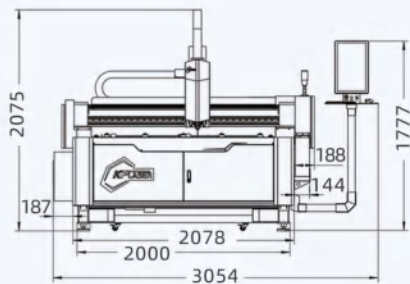

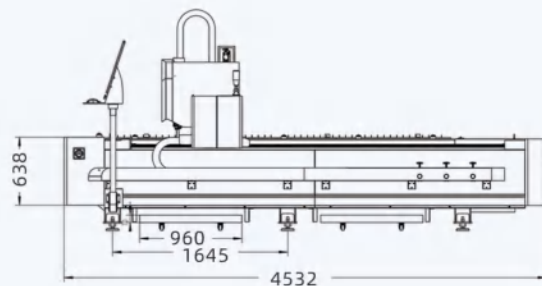

Lightweight While Ensuring
High-speed Movement

High Level of
Environmental
Protection

Dimension Layout

Performance Parameters

Model	S3	S4	S6
Working Area(mm)	3050*1530mm	4020*2030mm	6050*2530mm
Dimension (L*W*H)	4500*2800*1825mm	5500*3275*1855mm	7400*3700*1855mm
Power Support		1500-20000W	
Maximum Idle Running Speed		100m/min	
Maximum Idle Acceleration		1.2G	
X/Y Axis Positioning Accuracy		±0.05mm	
Repeat Positioning Accuracy		±0.02mm
